

Requisitions' Project Selection Breakdown

WhWhiteTech.Com

The screenshot shows a software interface with a 'Select Project' dialog box. A large green arrow points to the 'Current Projects' radio button, which is selected. The dialog box has tabs for 'Import', 'Edit', 'Create', 'Summary', 'E-Signature', 'Vendors', and 'Ship-To'. It includes a dropdown menu, an 'Email Ready' checkbox, and buttons for 'Box Label', 'Project Descriptions', and 'Shelf Label'.

Project Selection Options

- All Projects: List every project in the database, including overhead numbers
- Current Projects: Projects which are active and have not been closed in the accounting software
- Open Reqs Projects: Select only the current projects in the database which have requisitions not assigned a Purchase Order (PO) number.
